

# Luma Connected with Cerner Millennium™

**Envision patient success with Luma.** Imagine your EHR workflows automatically driving improved reach, access to care, and health outcomes for all your patients and not-yet-patients.

## One platform, one EHR source of truth

Luma meshes with your unique workflows and is validated with Cerner Millennium™. Industry-leading FHIR API integration supports out-of-the-box or customized workflows that fit together to meet your needs.

- ✓ Offer near real-time scheduling based on white space in Appointment Book
- ✓ Automatically mark patients as arrived, confirmed, or canceled
- ✓ Create appointments and encounters (even for new patients)
- ✓ Remind patients with an outstanding balance to pay and offer a link to your payment portal
- ✓ Send patient forms back to the chart as PDFs

## What sets Luma apart

- » Cerner code Developer Program member with deep API integration
- » Available to extend to CommunityWorks users
- » Experienced implementation at any point in your EHR install, upgrade, or maintenance

## Outcomes from the Luma Health community

### OrthoNebraska

Enables self-scheduling for complex specialty appointments, with 900+ scheduled in two months.

### Banner Health

Streamlines intake and pre-visit communication, reducing no-shows in imaging departments by 20%.

### Maury Regional Health

Creates standardized and personalized workflows resulting in 66% fewer no-shows and doubling appointment volume.

# Connected to your schedule via Cerner Ignite APIs

For staff, fuller schedules and fewer manual tasks. For patients, a delightful experience without phone calls.
